2

# Installation

#### Step 1

Please make sure your computers and monitor are powered **OFF** before you start.

#### Step 2

Connect the VGA cable from your monitor to the console VGA monitor port.

#### Step 3

Connect your USB keyboard and mouse to the console USB keyboard port and console USB mouse port.

#### Step 4

Connect a set of your molded KVM cable to each of your computers – VGA cable to the VGA output and USB cables to open USB ports from your computer.

#### Final Step Turn on your computers.

# **Port Switching**

Simply press the remote port switching button to switch to the next port.

# LED Indication

LED will light up in green showing the port that is selected.

#### **FCC Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential setting. This product generates, uses, and can radiate radio frequecy energy and, if not installed and used as directed, it may cause harmful interference to radio communications. Although this product complies with the limits for a Class B digital device, there is no guarantee that interference will not occur in a particular installation.

#### **CE** Compliance

This device has been tested and found to comply with the following European Union directives: Electromagnetic Capability (2004/108/EC), Low Voltage (2006/95/EC) and R&TTED (1999/5/EC).

# Warranty
